Apartment 50: Paper 007

AuthorityEffect: None. This is fictional examination staging, not a historical quotation or a source of mathematical authority.

Landau points at the declared carrier. Woland asks which claim its checker can establish. Behemoth asks for the smallest valid near miss. Their task in this companion is **prediction, execution, and learning evidence**.

Begin with the study guide, then attempt the 24-problem quiz before opening the separate instructor key. Record each first prediction before viewing reference outputs. A lower-case wire token names a role only after its interpretation is declared. Arrows sketch graph edges; they do not automatically attach higher-dimensional cells. A receipt records its declared check and inputs. It cannot establish learner transfer without learner observations.

The examiner's standard is a concrete calculation, an explicit counterexample, or a source-bound missing obligation. The manuscript source reading governs the answer.
