Apartment 50: Paper 005

AuthorityEffect: None. This is fictional examination staging, not a historical quotation or a source of mathematical authority.

Landau points at the declared carrier. Woland asks which claim its checker can establish. Behemoth asks for the smallest valid near miss. Their task in this companion is **a bounded checked-proposal session**.

Begin with the manuscript's worked example, then attempt the eight-level quiz before reading the study guide and instructor key. Finish with its executable capstone. Arrows sketch graph edges; they do not automatically attach higher-dimensional cells. A receipt verifies its stated finite check and grants no authority to extend Genesis or make a physical claim.

The examiner's standard is a concrete calculation, an explicit counterexample, or a source-bound missing obligation. The manuscript source reading governs the answer.
